

LEON-MP

The collection is a perfect solution for compact guest bathrooms. The furniture is available in two colors: sonoma oak and white. The second coating is white glossy enamel. There is a mirror with an LED lamp and switch. The cabinet is completed with a universal left-right washbasin made of molded marble Unam 220. Facades and pedestal bodies are made of European-made laminated chipboard (high density particle board). The edge on all elements is applied using a laser, which significantly increases the moisture resistance of the furniture. The model is produced in the size of 40 cm in a suspended version and is equipped with a hinged door on furniture hinges with doorstop, which opens to the right.
